Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 29th October 1960

SPECIAL NOTICE

The following Group of Abridgments of Patent Specifications has been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1/- per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta, on cash payment.

Group XLIII

(Containing Abridgments of —Abrading, brushing, Patent Specifications between soaps, hand-tools and Nos. 35,001 and 40,000). wood working.

CORRIGENDA

(1)

In the Gazette of India, Part III, Sec. 2, dated 2nd July 1960—

In page 194, column 2, under the heading "Printed specifications Published"—

for No. "59992" read No. "59922".

(2)

In the Gazette of India, Part III, Sec. 2, dated 30th July 1960—

In page 218, column 2, under the heading "Renewal fees paid"—

for No. "58382" read No. "58383"

and

for No. "58528" read No. "58525".

(3)

In the Gazette of India, Part III, Sec. 2, dated 6th August 1960—

In page 223, column 2, under the heading "Application Accepted"—

Against No. 65810—

for "Glaxo Laboratories Limited"

read "Glaxo Laboratories Limited".

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

13th October 1960

73702. Council of Scientific and Industrial Research. A process for the preparation of cyclopentadecanolide (exaltolide).

73703. S. A. Nizami. Techni colour soap.

73704. Minnesota Mining and Manufacturing Company. Connector.

73705. Sterling Drug Inc. Chemical compounds.

73706. Stamicarbon N. V. Screening device.

73707. Commissariat A L'Energie Atomique. Fluid-tight inter-communication and disconnecting device for two superposed chambers.

73708. Maybach-Motorenbau G.m.b.H. Improvements in and relating to clutches.

73709. Kimberly-Clark Corporation. Electrically conductive paper, and method of making it. (12th August 1960)

73710. Glaxo Laboratories Limited. Compositions for use as bronchographic X-ray contrast agents. (12th May 1958). [Divisional date 5th May 1959].

73711. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Complex metal compounds of water-insoluble azo-dyestuffs.

73712. Ethicon, Inc. Collagen film.

73713. Kugelfischer Georg Schafer & Co. Method of heating annular metallic bodies by electrical induction.

73714. W. H. Chapman. Steroid manufacture.

73715. W. H. Chapman. Steroid synthesis.

14th October 1960

73716. Jogendra Nath Sarkar. Improvements in electrolyser for the manufacture of hypo-chlorite.

73717. Amchem Products, Inc. Herbicidal compositions. (17th May 1960). [Addition to No. 69609].

73718. Imperial Chemical Industries Limited. Fungicides. (26th October 1959). [Addition to No. 67097].

73719. Imperial Chemical Industries Limited. New metal-complex monoazo dyestuffs. (9th November 1959).

73720. Maybach-Motorenbau G.m.b.H. Improvements in and relating to spur gear mechanism.

73721. Rohm & Haas Company. A process for preparing acrylate copolymers of controlled stereoregularity.
73722. Rohm & Haas Company. Process for polymerizing esters of acrylic acid and methacrylic acids.
73723. Dr. Karl Thomae GmbH. Chemical compounds. (2nd May 1960).
73724. Caterpillar Tractor Co. Ejector for loader buckets.
73725. Rubber and Wheel Industries (Proprietary) Limited. Improvements in rail pad assemblies.
73726. Hovercraft Development Limited. Improvements in or relating to vehicles for travelling over land and/or water. (16th October 1959).
73727. Siemens & Halske Aktiengesellschaft. Current control circuit.
73728. Siemens & Halske Aktiengesellschaft. Pulse shaper.
73729. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Improvements in or relating to pipes. [Divisional date 17th June 1959].
73752. Giddings & Lewis-Fraser Limited. Improvements in or relating to card clothing for carding machines (23rd October 1959).
73753. E. I. Du Pont De Nemours and Company. Structures and their preparation.
73754. Klönne-Collin G.m.b.H. Process for the production of gas of high calorific value from solid fuel.
73755. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Fluorescent dyestuffs and process for their manufacture.

18th October 1960

73730. Council of Scientific and Industrial Research. A process for the preparation of urease from red gram (*cajanus cajan*).
73731. A. P. Hussain. An improved articulated structure.
73732. May & Baker Limited. Improvements in or relating to heterocyclic compounds. (20th October 1959).
73733. May & Baker Limited. New pyrazole derivatives. (26th October 1959).
73734. Kienzle Apparate G.m.b.H. Improvements in or relating to taximeters. (16th December 1959).
73735. United States Rubber Company. Improvements in antimitotic chemotherapeutic compounds.
73736. Stamicarbon N.V. Process for covering surfaces with a continuous layer consisting of polymers or copolymers of mono-olefins.
73737. Artrite Resins Limited. Method for the preparation of polyaromatic resins.
73738. H. L. M. Pelletier. Apparatus for treating water.
73739. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of accurately dimensioning glass envelopes for electric discharge tubes.
73740. Weco Products Company. Bacteriostatic articles and method of manufacture.
73741. Merck & Co., Inc. Steroid production. (26th July 1958). [Divisional date 4th May 1959].
73760. Smith Kline & French Laboratories. Improvements in or relating to novel medicinal compositions.
73761. Snia Viscosa Societa' Nazionale Industria Applicazioni Viscosa S.p.A. Process for preparing cyclohexanone oxime.
73762. Westinghouse Brake & Signal Company Limited. Improvements relating to remote control and/or indication systems. (5th November 1959).
73763. Aluminium Laboratories Limited. Stud planting apparatus.
73764. Check-All Valve Company. Check valve.
73765. Associated Electrical Industries Limited. Improvements relating to impedance protective systems. (29th October 1959).
73766. Celanese Corporation of America. Wet spinning.
73767. Ciba Limited. New monoepoxides and process for their preparation.
73768. Ciba Limited. New epoxides and process for their preparation.
73769. Asahi Kasei Kogyo Kabushiki Kaisha. A method for recovery of selenium from a selenium or its compounds-enriched solution.

Alteration of Date

71512. Ante-dated to 7th April 1959 under Section 5 of the Act.
72586. Ante-dated to 13th April 1959 under Section 5 of the Act.
72749. Ante-dated to 21st April 1959 under Section 5 of the Act.
72966. Ante-dated to 18th April 1959 under Section 5 of the Act.

Applications Accepted

73745. Chinoin Gyogyszer- es Vegyeszeti Termekek Gyara RT. Pharmaceutically useful sulphonamide derivatives and a process for preparing same.
73746. Chinoin Gyogyszer- es Vegyeszeti Termekek Gyara RT. New sulphonamides and process for their preparation.
73747. AMP Incorporated. Improvements in or relating to modular circuit systems.
73748. AMP Incorporated. Improvements in or relating to magnetic remanence transfer systems.
73749. Ford Motor Company of Canada Limited. Improvements in or relating to power operated tractor hitches. (16th October 1959).
73750. Radio Corporation of America. Noise protection circuit for television receivers.
73751. The British Petroleum Company Limited. Lubricating compositions. (30th October 1959).
- Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.
- A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.
- If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.
- The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

66441. S. S. Mishra. Well water lifting device using no external energy. Accepted on 13th October 1960.

Three pipes so connected in a well that one end of a tube in third pipe is water outlet, other end taking water from same pipe, another tube so connecting the pipes that its one end brings water in third pipe which then passing through second pipe and a siphon which connects the first and second pipe, opens in the first pipe in yet another tube in the first pipe and enters into siphon.

66442. Niren Majumder. Heat and sound insulation board and the like. Accepted on 17th October 1960.

Vegetable fibrous material soaked with aqueous solution of magnesium chloride, and then thoroughly mixed with a mix prepared by mixing a bestos powder and/or glass powder, calcined magnesite and moistening the same with magnesium chloride solution and casting the final mix in moulds.

66616. N. V. Philips' Gloeilampenfabrieken. Hair-clipping fixtures. Accepted on 15th October 1960.

Having a device for converting rotary motion into reciprocating motion containing a pin sleeve or disc imparting a reciprocating motion to a member coupled to it eccentrically.

66828. Consolidated Electronics Industries Corp. Motor speed governor unit for cordless clocks and the like. (21st April 1958). Accepted on 17th October 1960.

Characterized by constant speed device comprising a balance wheel, a pallet lever actuated between operative positions by balance wheel.

67125. Chas. Pfizer & Co., Inc. Improvements in or relating to 2-alkylidene-1, 4-benzothiazane-3-ones. Accepted on 21st September 1960.

By reacting 2-alkyl-1, 4-benzo-thiazane-3-one with a chlorinating agent in a liquid hydrogenated hydrocarbon solvent at a temperature-10°C to 10°C.

67297. The Norwich Pharmacal Company. Preparation of new pyridazinones. Accepted on 7th October 1960.

2-(4-pyridyl) ethyl hydrazine is reacted with levulinic acid or an alkyl ester thereof.

67307. Chas. Pfizer & Co., Inc. Halogenated 2,2-dialkyl-1, 4-benzothiazane-3-one-1, 1-dioxides, preparation, thereof and compositions containing said compounds. Accepted on 10th October 1960.

Oxidising halogenated 2:2-dialkyl-1:4-benzothiazene-3-ones.

67312. Farbenfabriken Bayer Aktiengesellschaft. New thiophosphoric acid esters. (6th February 1959). Accepted on 9th October 1960.

Alkoxy, alkylmercapto-, alkylsulphoxy or alkylsulphonyl phenyl mercaptan is reacted with an 0,0-dialkylphosphoric acid or an 0,0-dialkyl-phosphonic acid monochloride, or with an 0-alkyl-phosphoric acid/phosphoric acid chloride or a di (alkoxy- or alkyl mercapto or alkyl sulphoxy or alkyl sulphonyl phenyl) -disulphide is converted with chlorine into the sulphonic acid chloride and the latter reacted with 0,0-dialkyl phosphite/thiol phosphite.

67330. Bracker A.G. Steel wire heald. Accepted on 13th October 1960.

Characterized by the end-eye-plates having two slots each and wherein the ends of the two wires of the double wire are each separately soldered in one of these slots.

67356. Deutsche Gold-Und Silber-Scheideanstalt Vormals Roessler. Process for the production of therapeutically active basically substituted carbonylic acid amides. (31st March 1959). Accepted on 13th October 1960.

Reacting tertiary carboxylic acid amide with halopyridine and treating the product with amino alkyl halide.

67365. PECHINEY Compagnie de Produits Chimiques et Electro-metallurgiques. Process and apparatus for protecting a rotative shaft from deterioration by the medium within which it rotates. Accepted on 15th October 1960.

Injecting by pressure pumping means a lubricating liquid non-miscible with medium within which shaft rotates into space between shaft and bore.

67392. D. P. Asar. Brackets for venetian blinds. Accepted on 17th October 1960.

Provided with one or more anchors or stays, an end of which being secured to the bracket while the other end being secured to the wall.

67393. Parmeshwari Devi Jaiswal. Handle for doors, furniture and for like purposes. Accepted on 17th October 1960.

At the underside of the base plate one or more recesses are formed to house the nuts or screws for securing handle part with the base plate.

67399. Molins Machine Company Limited. Improvements in or relating to apparatus for forming a tobacco filler. (28th April 1958). Accepted on 18th October 1960.

Comprising a conveyor perforated along its whole length, means to supply tobacco to the conveyor to form the filler thereon and means to apply suction to the conveyor so as to hold the tobacco filler to the conveyor.

67401. Michael F. Robertshaw Limited. Improvements in or relating to threaded members. (25th April 1958). Accepted on 17th October 1960.

Comprising the steps of forming a one-piece flat blank, impressing into blank parallel grooves, and forming and folding stamped and impressed blank into a substantially tubular shape with the ends of grooves not quite meeting or being not quite in phase.

67408. Siemens Edison Swan Limited. Improvements relating to regulated powder supply arrangements. (23rd April 1958). Accepted on 15th October 1960.

Including, for opposite ends of a telecommunications cable link requiring operating electric power for apparatus located between its ends, respective power supply units, magnitudes of output currents of said units being convergent with rising output voltage towards a particular current level.

67431. P. Safar and M. C. McMahon. A device for blowing air into patient's lungs. Accepted on 14th October 1960.

Comprises a tubular member having two ends curved in opposite directions separated by a straight section.

67445. Olin mathieson Chemical Corporation. Dihydrobenzothiadiazines. Accepted on 17th October 1960.

Reacting amino- α,α,α -trifluorotoluenedisulfonamide with formaldehyde.

67489. Sandoz Ltd. Improvements in or relating to active obtained from fungal material, named 'psilocybin' and 'psilocin'. (11th February 1959). Accepted on 15th October 1960.

Extracting fungal material of psilocybe, stropharia and panaeolus genus with water or water miscible organic solvent degreasing the extract and isolating active material by chromatography.

67568. Council of Scientific and Industrial Research. A process for the preparation of aqueous solution of water insoluble furocoumarins. Accepted on 13th October 1960.

Reacting furocoumarin with aqueous solution of alkali salt of fatty acid or bile acid.

67613. W. D. W. Smith. Improvements in or relating to tea sifting apparatus. (8th May 1958) Accepted on 17th October 1960.

Comprising sieve device mounted on laminated leaf springs which is mounted on fixed support in angularly adjustable way, a shaft with weighed element secured eccentrically thereto mounted rotatably on the sieve device a driving motor on fixed support and drive transmission means connecting the motor to the shaft.

67628. R. Hagen. Improvements in the production of hollow articles. Accepted on 18th October 1960.

Wherein the mould comprises two parts, the secondary part being movable with respect to the main part and the parts have cutting edges and abutments.

67659. The General Electric Company Limited. Improvements in or relating to vibratory equipment. (20th May 1958). Accepted on 15th October 1960.

Comprising a support in the form of deck or trough arranged to be vibrated by a vibrator in the direction of length of support.

67809. Food Machinery and Chemical Corporation. Method for reduction of organic compounds containing nitrile group or nitrile and oximino groups and the organic compounds so prepared. Accepted on 17th October 1960.

In presence of raney metal catalyst, liquid aliphatic acid anhydride and alkaline substance.

67866. C.I.P.—Compagnia Italiana Petrolio Soc.p.A. Continuous process for the manufacturing of alkyl-lead compounds, in particular tetraethyl-lead. Accepted on 17th October 1960.

Reacting in a closed vessel under pressure while keeping solid reacting substances in unidirectional movement and at constant transfer speed.

67993. Vetrocoke S.p.A. Improvements in a method of removing and recovering carbon dioxide from gaseous mixtures. Accepted on 15th October 1960.

Treating with aqueous alkaline solution containing arsenious anhydride to remove CO₂ and regenerating same by treating with gaseous fluid at low temperature and atmospheric pressure.

68064. Pirelli Società Per Azioni. Improvements in or relating to high-tension electric cables. (26th March 1959). Accepted on 15th October 1960.

Cables provided with screening tapes made of metal or of sheets of paper or synthetic material between dielectrics.

68297. Ciba Limited. Process for the manufacture of new biguanides and pharmaceutical preparations containing the same. Accepted on 13th October 1960.

4-Biguanidodiphenyl compounds are prepared by converting a 4-amino compound into a biguanide by conventional methods, the product if desired being alkylated.

68410. Mead Johnson & Company. Process for the preparation of 1-substituted-3-pyrrolidylmethyl alcohols. Accepted on 13th October 1960.

Catalytically hydrogenating 1-substituted-3-carbalkoxy-5-pyrrolidinone.

68425. H. Ziller. A sealing ring for anti-friction bearings. Accepted on 14th October 1960.

Sealing ring flanged on one side and unflanged on the other, rim of the unflanged side being clamped to bearing rings while the flanged side resiliently contacting the other bearing flanged side extending at right angles to unflanged side and held in close contact between shoulder of a shaft or a casing and one side of bearing ring of bearings.

68651. Standard Telephones and Cables Limited. Ferrite matrix storage device. [Addition to No. 65032]. Accepted on 14th October 1960.

Each matrix of storage device is divided in two half planes and wired such that one call up pulse simultaneously pass through one line or column wire of one half plane in one phase and through a corresponding line or column of other half plane in opposite phase and one inhibit wire with respectively one partial loop for each of said two half-planes is provided.

68673. Lakhi Trading Company. Improvements in or relating to preserving jars or like containers for preserving butter, fruits and like articles fresh. Accepted on 15th October 1960.

Characterised in that it has the following main parts, a lid part, a washer with an opening at the centre fitted in the lid, a pumping chamber, a hollow stud or like piece and a receptacle, wherein the pumping chamber extends downwards from the lid within the receptacle.

68702. The Cotton Agents Private Ltd. Preserving molasses. Accepted on 13th October 1960.

Covering the surface of the molasses with a layer of oil which does not allow air to come in contact with the molasses.

68703. Metallschlauchfabrik Pforzheim Vorm. Hch. Witzemann G.m.b.H. Tubular sheath for tension wires in prestressed concrete. Accepted on 17th October 1960

Characterised by the fact that the inner corrugation is of a greater width than the outer corrugation and widths have a ratio to each other of 1:1.2 to 1:4.

- 68909 "ELMASS" Walter Buhner & Sohn. Improvements relating to keyway cutting devices. Accepted on 14th October 1960.

Cutting tool is guided in a hole near the free end of the guide tube and directed transversely of the axis of the latter.

69172. The Dow Chemical Company. Process and apparatus for devolatilizing polymeric compositions, especially alkenyl aromatic polymers. Accepted on 17th October 1960.

Molten polymer composition is caused to flow downwardly as continuous coating on a surface heated preferably to a temperature higher than melting temperature of polymer.

69830. Metropolitan-Vickers Electrical Company Limited. Mounting arrangements for electric instruments of relays. (26th November 1958). Accepted on 14th October 1960.

Comprises a mounting frame for removably supporting the device and is provided with a movable cover having switching means associated with the mounting frame.

70786. Le Materiel Electrique S.W. (Societe anonyme). Selective call receiver. Accepted on 15th October 1960.

Comprises a pulse relay adapted to receive pulses and transmit then each time energisation in tunnel on or off.

71512. The Norwich Pharmacal Company. 2-(4-pyridyl) ethylhydrazine. [Divisional date 7th April 1959]. Accepted on 7th October 1960.

Hydrazine hydrate is reacted with 4-vinyl pyridine.

72586. The Wellcome Foundation Limited. Amine derivatives of cyclopropane and the manufacture thereof. [Divisional date 13th April 1959]. Accepted on 13th October 1960.

Treating 1,1-diaryl-2-tertiary aminomethyl-3-cis-hydroxymethyl cyclopropane with hydrocarbon sulphonyl halide.

72749. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of quinazoline 3-oxides. [Divisional date 21st April 1959]. Accepted on 18th October 1960.

An orthoaminobenzophenone is reacted with NH_4OH , the oxime is acylated and the product is dehydrated by the action of mineral acids.

72966. Molins Machine Company Limited. Conveyors for use in apparatus for forming a continuous tobacco filler. (28th April 1958). [Divisional date 18th April 1959]. Accepted on 18th October 1960.

A conveyor having a purforated surface which extends along its whole length and through which suction can be applied to hold the continuous filler thereto, the permeability of the conveyor being varied at selected longitudinally spaced portion.

Opposition Proceedings

(1)

An opposition has been entered by The Patent Tiffin Carrier Sanghvi Co. to the grant of a patent on application No. 65100 made by C. A. Anvindyamanik and Lakhi Trading Company.

(2)

An opposition has been entered by Macfarlane & Co. Ltd., to the grant of a patent on application No. 67353 made by R. Garstenauer.

(3)

An opposition has been entered by Shalimar Tar Products (1935) Limited to the grant of a patent on application No. 67353 made by R. Garstenauer.

(4)

An opposition has been entered by Transcontinental Development Company Trust Reg., to the grant of a patent on application No. 67478 made by Unilever Limited.

Printed Specification Published

A Limited number of printed copies of the undernoted specifications are available for sale from Office-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

Amendment Proceedings

Notice is hereby given under section 17 of the Indian Patents and Designs Act, 1911 that Conch International Methane Limited (formerly known as Constock International Methane Limited) with registered office at Sandringham House, Shirley Street, Nassau, Bahamas and with postal address at Rocketteller Plaza, New York, New York, United States of America a corporation of the Bahamas, seek leave to amend the name of the Applicants in the application specification and drawings in respect of Patent application No. 67263. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office on payment of the usual charges.

Registration of Assignments, Licences, Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interests:—

59677 — Societa Per Azioni Pietro Maria Ceretti.
63578 — Johnson & Johnson.

Restoration Proceedings

Notice is hereby given that an application has been made under Section 16 of the Indian Patents & Designs Act, 1911, for the restoration of the following patent:

No. 46161—Eshwar Raj Saxena, Dinkar Shripat Datar, and Syed Hussain Zaheer.

The patent ceased on the 8th November 1958 owing to non-payment of renewal fee within the prescribed time and cessation of the patent was notified in Part III, Section 2 of the Gazette of India dated the 28th February 1959. Any person may give notice of opposition to the restoration by leaving an application on form 6 of the Indian Patents & Designs Rules, 1933 at the Patent Office, 214, Lower Circular Road, Calcutta-17 on or before the 10th December 1960.
